 Dates: Five Saturdays, February 15 through March 14
 Location: Jack E. Kirksey Rec Center
 15100 Hubbard, Livonia, MI 48154
 Cost: \$119 (scholarships available)

WHAT IS A
RAIN GARDEN

RESTORING
YOUR RIVER.

Clean & Return

BEAUTIFYING
NEIGHBORHOODS.

Rain gardens **capture** dirty **runoff** water, keeping pollution out of the river. They also temporarily **store** rainwater, guarding against flooding and erosion. Plants in the garden **clean** and filter the water as it **returns** to the ground.

Friends of the ROUGE

Help us to create a cleaner, healthier, happier river.
