4. APPEAL OF: Mr. & Mrs. Bill White  
23701 Wilmarth  
Farmington, MI 48335

The Whites wish to expand the second story of their home. The existing home is non-conforming in that it's present location is within current zoning code rear yard set back requirements. This location is shown on sheet A-000 of the site plan drawings. This addition will not increase the existing building footprint. Review of this issue by the board is required under Sec 35-206E (explanation of a non-conforming residential building) of the City code.
